Sebastián Giraldo

UI Developer and UI/UX Designer

PROFESSIONAL SUMMARY

As a web developer, I thrive on crafting dynamic and innovative products from inception to execution.
My expertise lies in creating intuitive **user experiences** that evolve and enhance based on user metrics. With a relentless focus on delivery, I ensure that projects reach completion and consistently deliver tangible results.

WORK EXPERIENCE

Clínica Especialistas del Poblado - CIRUPLAN S.A.S - Medellín Antioquia

May 2024 - Present

- I am a UI Developer with hands-on experience in React, Next.js, and React Native, currently working at [. I specialize in creating intuitive, responsive, and high-performance user interfaces for web and mobile applications.

Founder of Chatizzí - Ibagué - Tolima

December 2023 - Present

- I am currently developing Chatizzi, a platform that merges Human Resources, Marketing and Customer Service to connect companies and customers efficiently. This personal project reflects my ability to innovate at the intersection of different business areas and my commitment to continuously improve the user experience.

FullStack Developer in zíro - Manizales

May 2023 - March 2024

- During my year at Zíro, I focused on developing interactive solutions that significantly enhanced the user experience and the product's interface. Additionally, I worked on creating special connections for generating WhatsApp templates, thus contributing to the innovation and efficiency of the platform.
